# CannaBusiness: Digging Deeper

Greater Rochester Chamber of Commerce is proud to continue leading the discussion in the Finger Lakes region on the cannabis industry and its potential impact to our economy and community. In partnership with HempLab NY, this follow-up to the popular Rochester TRENDS “CannaBusiness: Capitalizing on the Cannabis Economy” event will further examine the regulation of the emerging hemp and cannabis industries following the 2019 NYS Legislative Session. We will take a look at how a state office of cannabis management may work, as well as how cannabis may be regulated, including licensing and financial and tax implications.
